PROJECTS

Portfolio Website.

Developed a personal portfolio website using React.js, React Router DOM for navigation, Tailwind CSS for styling, and React Icons for icon display. The website showcases my projects, skills, and experience. Users can navigate seamlessly between sections and view project details.

Algorithm Visualizer.

Implemented an interactive tool for visualizing algorithms to aid in understanding their behavior and execution steps. Utilized React.js for frontend development and JSX for templating. The tool offers step-by-step visualizations of various algorithms and data structures, enhancing algorithmic understanding for students and professionals.

Recipe Hub.

Created a comprehensive platform for discovering, saving, and sharing recipes using React.js. Integrated the MealDB API for recipe search functionalities and implemented DARK and LIGHT mode for user preference. Users can easily search for recipes, save their favorites, and share them with friends.

EXPERTISE

- Proficient in React.js and JavaScript, with hands-on experience in building dynamic web applications.
- Skilled in responsive design, ensuring seamless user experiences across various devices.
